

QuickBT for Business

2014 Guide to Expanding Customer Reach

Do you accept Bitcoin?

You already accept Interac Online!

QuickBT is an instant payment option allowing your Canadian customers to pay with Interac Online, while you get paid in Bitcoin.

For transactions less than 0.04 (\$40CAD), your business doesn't need to sign up, or pay any fees.

Casual Integration

Simply give a customer:

- Your Bitcoin address
- Amount of BTC you need to receive
- Our website (QuickBT.com)

They'll complete the payment with Interac Online, and you'll receive your Bitcoin in seconds. Our system processes automatically.

Advanced Integration

If you have a web store and would like your customers to be able to pay with Interac Online as part of the checkout process, we invite you to use our API.

1. Customer shops on your site, and is ready to checkout
2. Customer Clicks "Checkout with QuickBT" link/image
 - a. Link contains all the information we need:
 - i. Your Address and Bitcoin Amount Needed
 - ii. Success Redirection URL and Passed ID (invoice etc)
3. Customer is routed to QuickBT and charges their bank account
4. QuickBT instantly buys Bitcoin and withdraws to your address
5. Customer is redirected to your site for payment confirmation
 - a. We add GET variables to your Redirection URL
 - i. tx: the Bitcoin address we sent payment to
[Soon: the official transaction number]
 - ii. passed_id: the Passed ID you gave us for your tracking
 - iii. Eg: Yoursite.com/?tx=2398fiugkh35&passed_id=12
6. You're paid! Instantly, and as part of your checkout workflow

Simply use our link with your details and you're set.
